## WELCOME AND ATTENDANCE

## AGENDA

### 1. Public Art Lighting Recap (ACTION ITEM):

With the installation of the recent public art project, there has been some discussion amongst Staff regarding the lighting of public art in the City. Currently the majority of lighting is required to be full cut-off with up-lighting only permitted in certain circumstances. The Art Department has requested that the Commission review the current lighting ordinance to see if there's a possibility of providing an exemption from the full cut-off requirement for public art.

**PROPOSED ACTIONS:** Receive the summary and provide Staff further direction as necessary.

### 2. Review of Public Art Lighting Options (ACTION ITEM):

The Commission will review several lighting options on the Helioterra public art installation to inform their decision on the proposed code amendment for public art lighting.

**PROPOSED ACTIONS:** Review the lighting options and provide Staff further direction as necessary.
