The State of Idaho recently adopted the 2015 International Building Code, the 2015 International Existing Building Code, the 2015 Idaho State Plumbing Code based off the 2015 Uniform Plumbing

code, the 2015 International Energy Conservation Code, and the 2017 National Electrical Code, with amendments, under the advice of State Boards: Building Code Board, Plumbing Board, and Electrical Board. As required by law, the City must also adopt the 2015 editions of these codes and the 2017 National Electrical Code. The City's Building Code Advisory Committee has reviewed and provided recommendations in various sections where they believed certain clarification, or additional requirements were warranted for the public health and safety of citizens of Moscow. The Advisory Committee also recommended Amendments to the 2012 International Residential Building Code. This matter has been scheduled for a public hearing before the City Council on December 18, 2017. This was reviewed and recommended for approval by the Administrative Committee on December 11, 2017.

Mayor Lambert read Ordinance 2017-17:

AN ORDINANCE OF THE CITY OF MOSCOW, IDAHO, A MUNICIPAL CORPORATION OF THE STATE OF IDAHO; PROVIDING FOR THE AMENDMENT OF MOSCOW CITY CODE TITLE 7, CHAPTERS 1, 2, 3, 15, AND 16, RELATING TO CONSTRUCTION REGULATIONS; PROVIDING THAT THE PROVISIONS OF THIS ORDINANCE BE DEEMED SEVERABLE; AND PROVIDING FOR THIS ORDINANCE TO BE IN FULL FORCE AND EFFECT FROM THE DATE OF ITS PASSAGE, APPROVAL AND PUBLICATION ACCORDING TO LAW.

## 8. 1810 Nursery Street Lot Division - Ryan Cash

Shelley Bennett has requested a lot division on behalf of Indian Hills Trading Company from a 10.36 acre parcel of land legally addressed as 1810 Nursery Street, located between the corners of Powers Avenue and Southview Drive within the City of Moscow. The applicant proposes to establish two parcels of approximately 3.26 acres, and 7.10 acres, from the 10.36 acre parcel. The subject property is located within the Farm, Ranch, and Outdoor Recreation (FR) Zone where the minimum lot area is 3 acres and the minimum lot width is 80 feet. The two proposed parcels will meet all minimum lot area and lot width requirements for the FR Zone. It was previously anticipated that Powers Avenue would be extended to the northeast to connect with the future extension of Southview Avenue in order to accommodate residential development. Since the current proposal did not include the extension of Powers Avenue, a cul-de-sac is required to be constructed at the terminus of Powers Avenue in order to meet City standards and the International Fire Code. In order to accommodate the cul-de-sac, the owner will need to dedicate additional right-of-way through a Deed of Dedication which would be approved by the Council at a future date. In accordance with City of Moscow requirements, property owners within 600 ft of the property have been notified of the proposed division and the site had been posted seven (7) days prior to the meeting date. This was reviewed by the Public Works/Finance Committee on December 11, 2017.

**ACTION:** Approve the lot division request with the condition that the owner dedicate property for, and construct, a 96 foot diameter cul-de-sac to City standards at the current terminus of Powers Avenue prior to any building permits being issued upon the subject property; or approve the lot division request with no conditions; or deny the lot division request; or take such other action deemed appropriate.

Cash introduced the item as written above and described the surrounding area.

Boland said this was before the PWF committee as a public meeting and the only testimony received was from an adjacent property owner regarding an easement.

Shelley Bennett, 2279 Moser Court, represents Indian Hills Trading, said they will come back with a plat if the lot division is approved and will work with the adjacent owner.

Steed asked about the parcel acreage and Ray said the map was mislabeled. Discussion ensued regarding the cul-de-sac and fire access for a proposed school. Ray explained the cul-de-sac is tied to the issuance of a building permit, not the lot division.

Approval of the lot division request with the condition that the owner dedicate property for, and construct, a 96 foot diameter cul-de-sac to City standards at the current terminus of Powers Avenue prior to any building permits being issued upon the subject property was approved by roll call vote.
